I have seen my Netomas campus teacher misuse his time focusing on the loud high school students, taking time from the adults who have paid to be there. High school students are oddly triggering & VERY RUDE to their own

A student came in late and the teacher did not let the student join the lecture. However, another student was late and the teacher let them join jokingly saying, "it because I know your father." Don't know how much of that is true but it was sad to see.

I have once seen professors ask for understanding of a student's sexuality/sexual identity but in the way those questions were posed it was more invasive in general with sensitive topics they should be addressed with caution to make the relationship between student and staff more open & clearer with communication.

They state their opinions about religion that is most of the time offensive.
